

I'll try it.

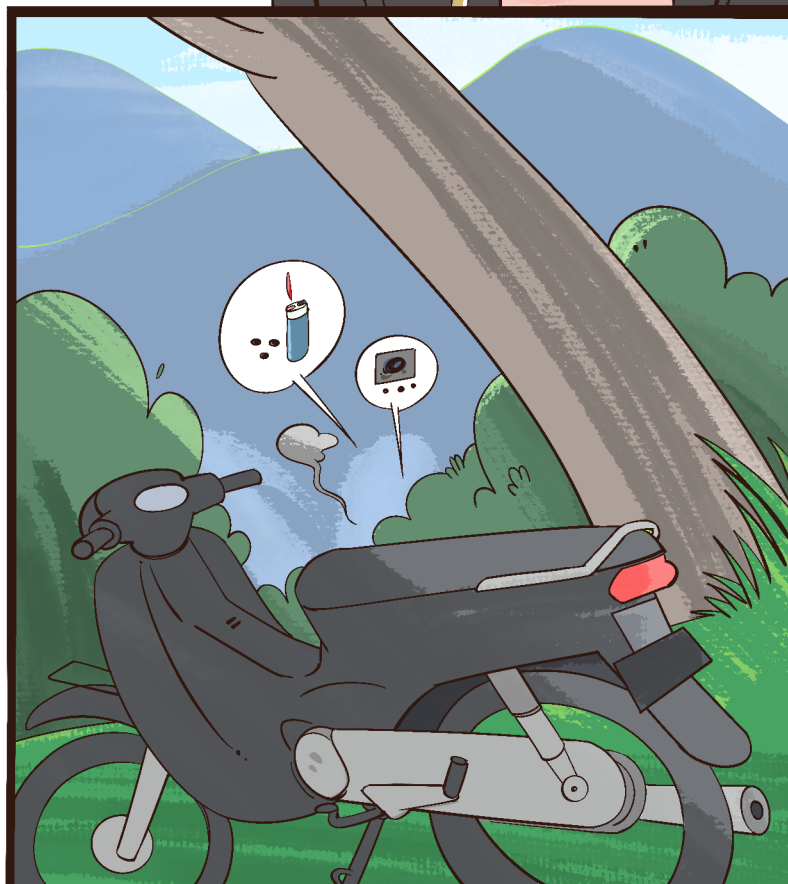

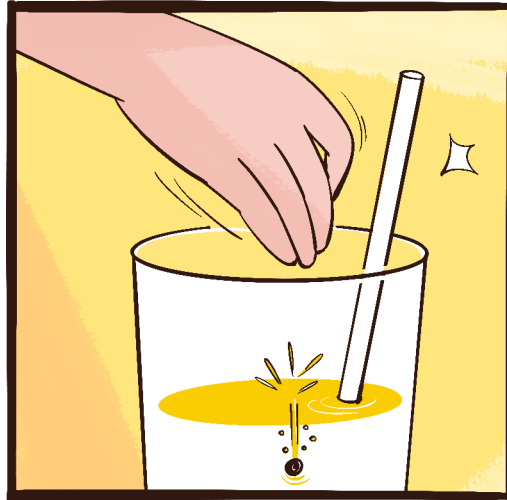

Sai Sai, I'm so stressed!  
I just can't seem to  
focus. I don't remember  
anything I've learnt and  
there's so much  
pressure to do well...  
I just want to be  
able to relax..

If you want to,  
you could always  
try some of this...  
It might help you  
relax.

Maybe it can take  
the stress away.

...okay  
I'll have some  
then.

Nang Nang is now taking formula two or three times a day on most days.

Sometimes spending as much as 15,000 kyats.

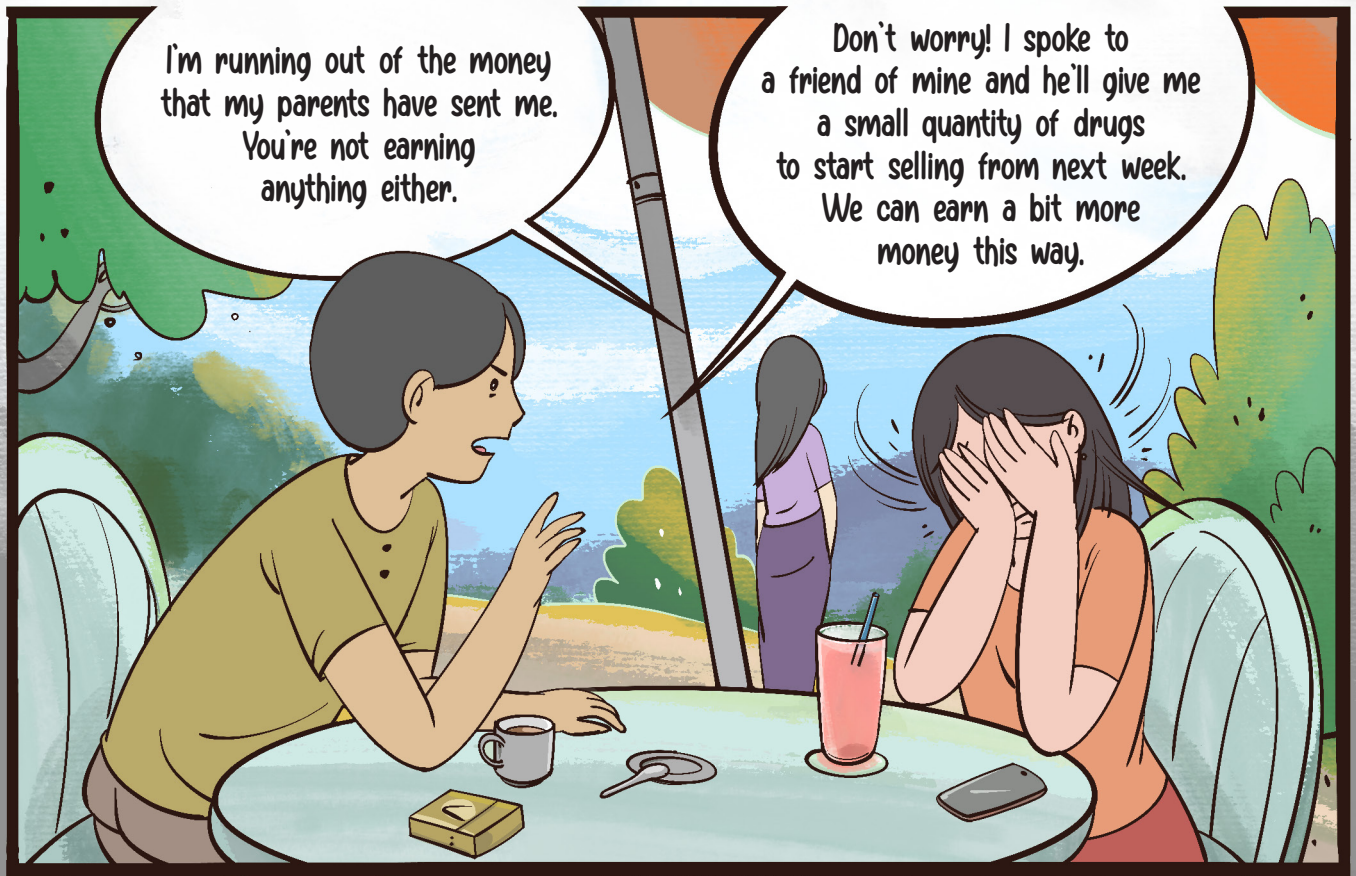

She buys yaba (methamphetamine pills) from someone outside campus because she feels like she needs more energy to get through the day.

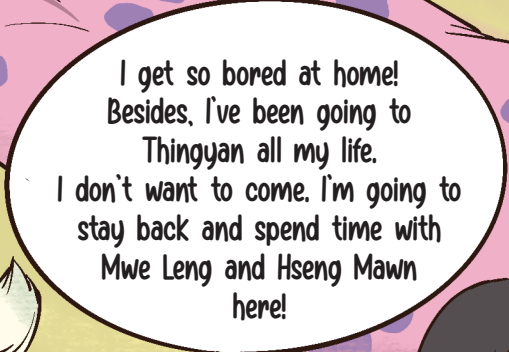

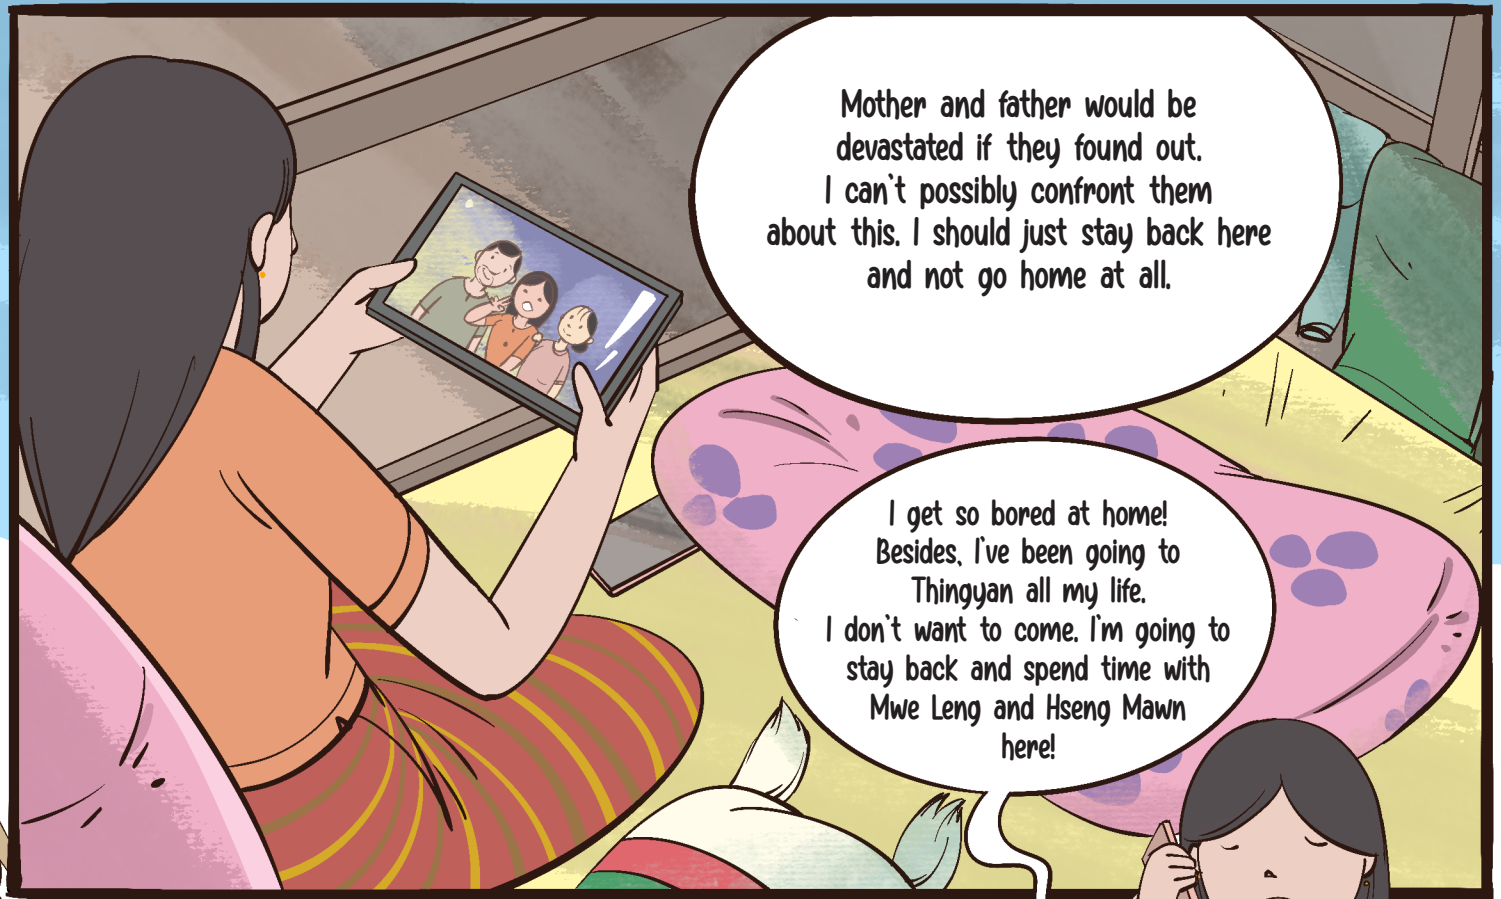

She and Sai Sai take it together. Soon their spending increases to 20,000 kyats per day, when they also buy other drugs.

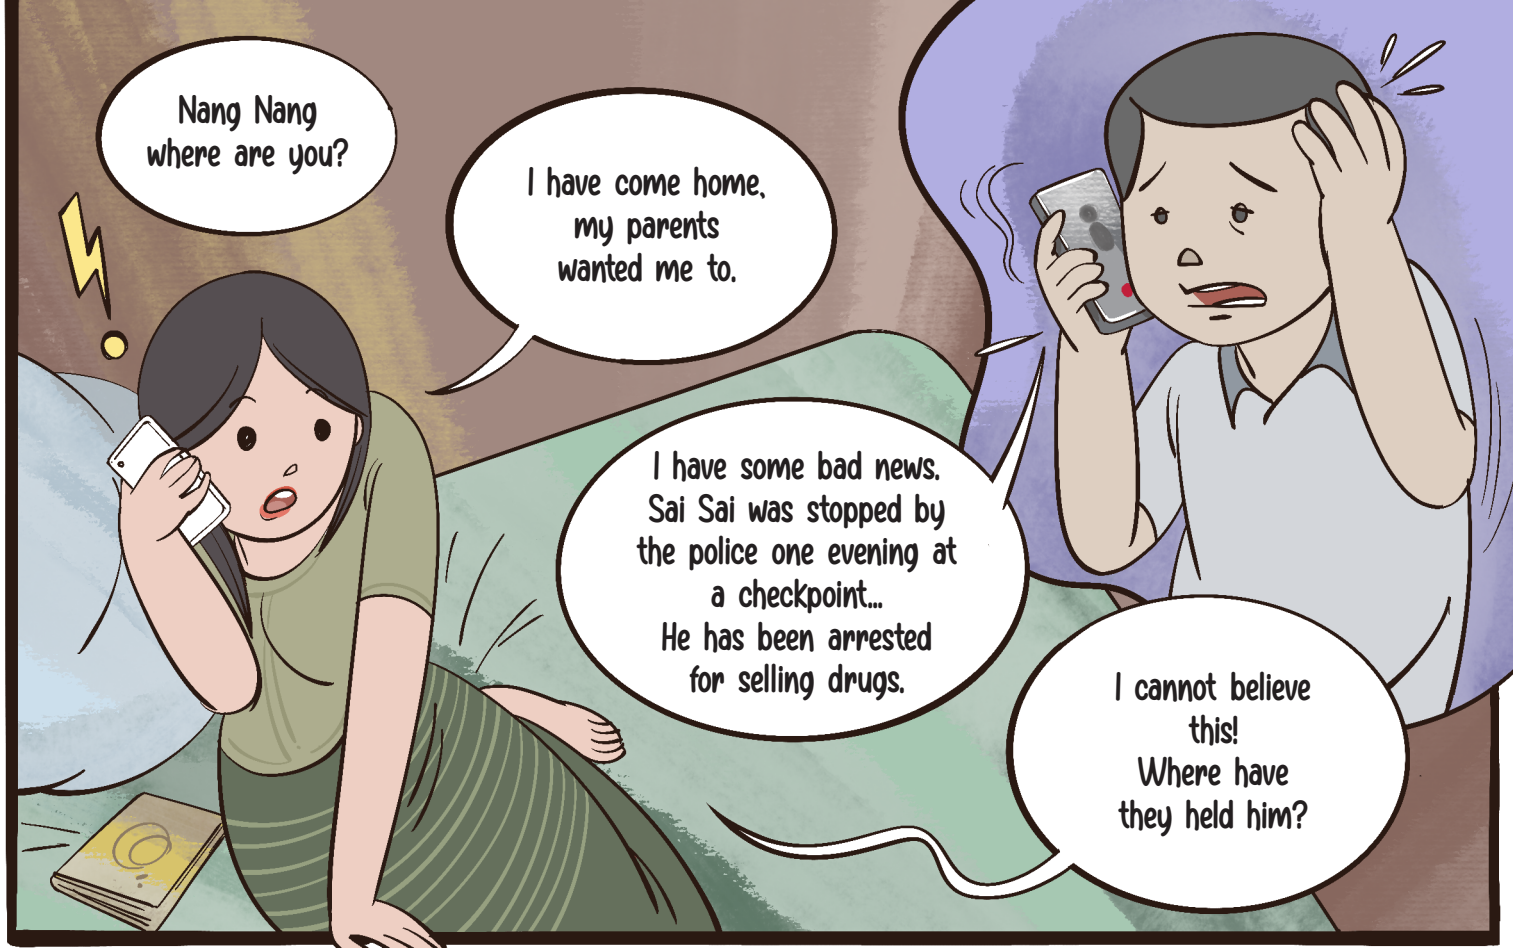

Nang Nang starts to give Sai Sai the money that her parents send her to go to university to finance their drug use.

Nang Nang where are you?

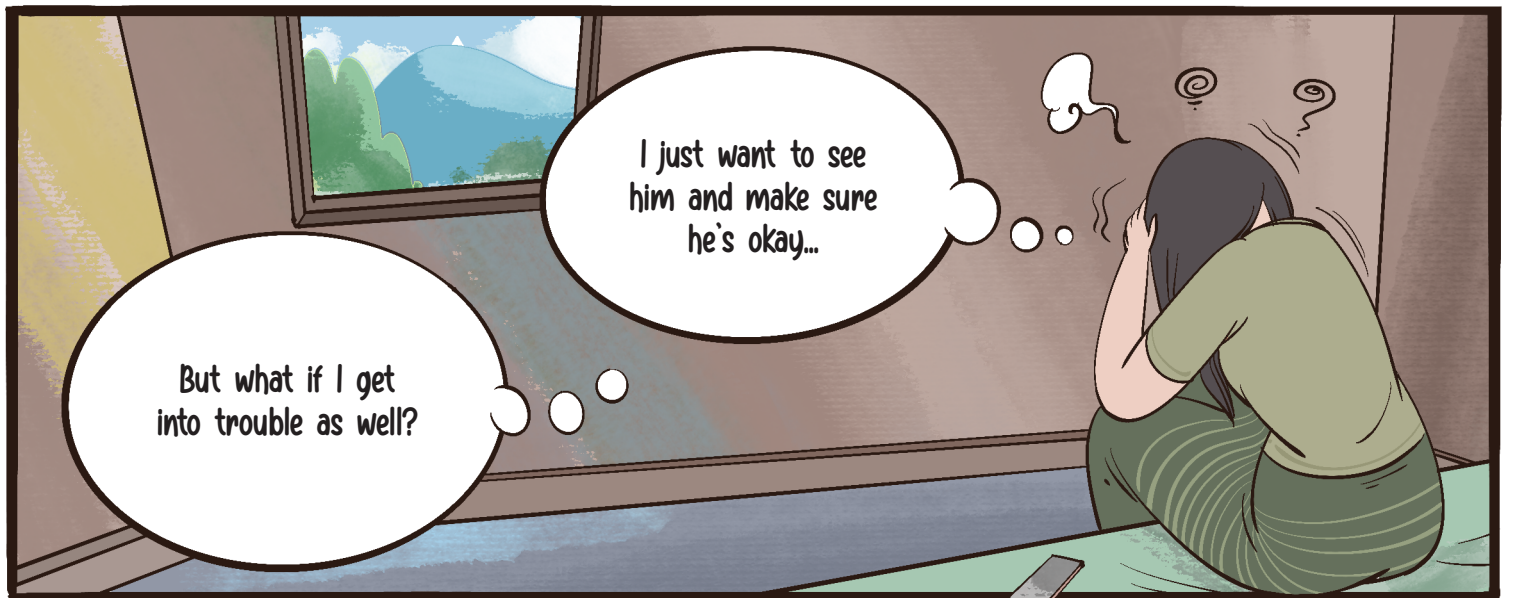

I have come home, my parents wanted me to.

I have some bad news. Sai Sai was stopped by the police one evening at a checkpoint... He has been arrested for selling drugs.

I cannot believe this! Where have they held him?

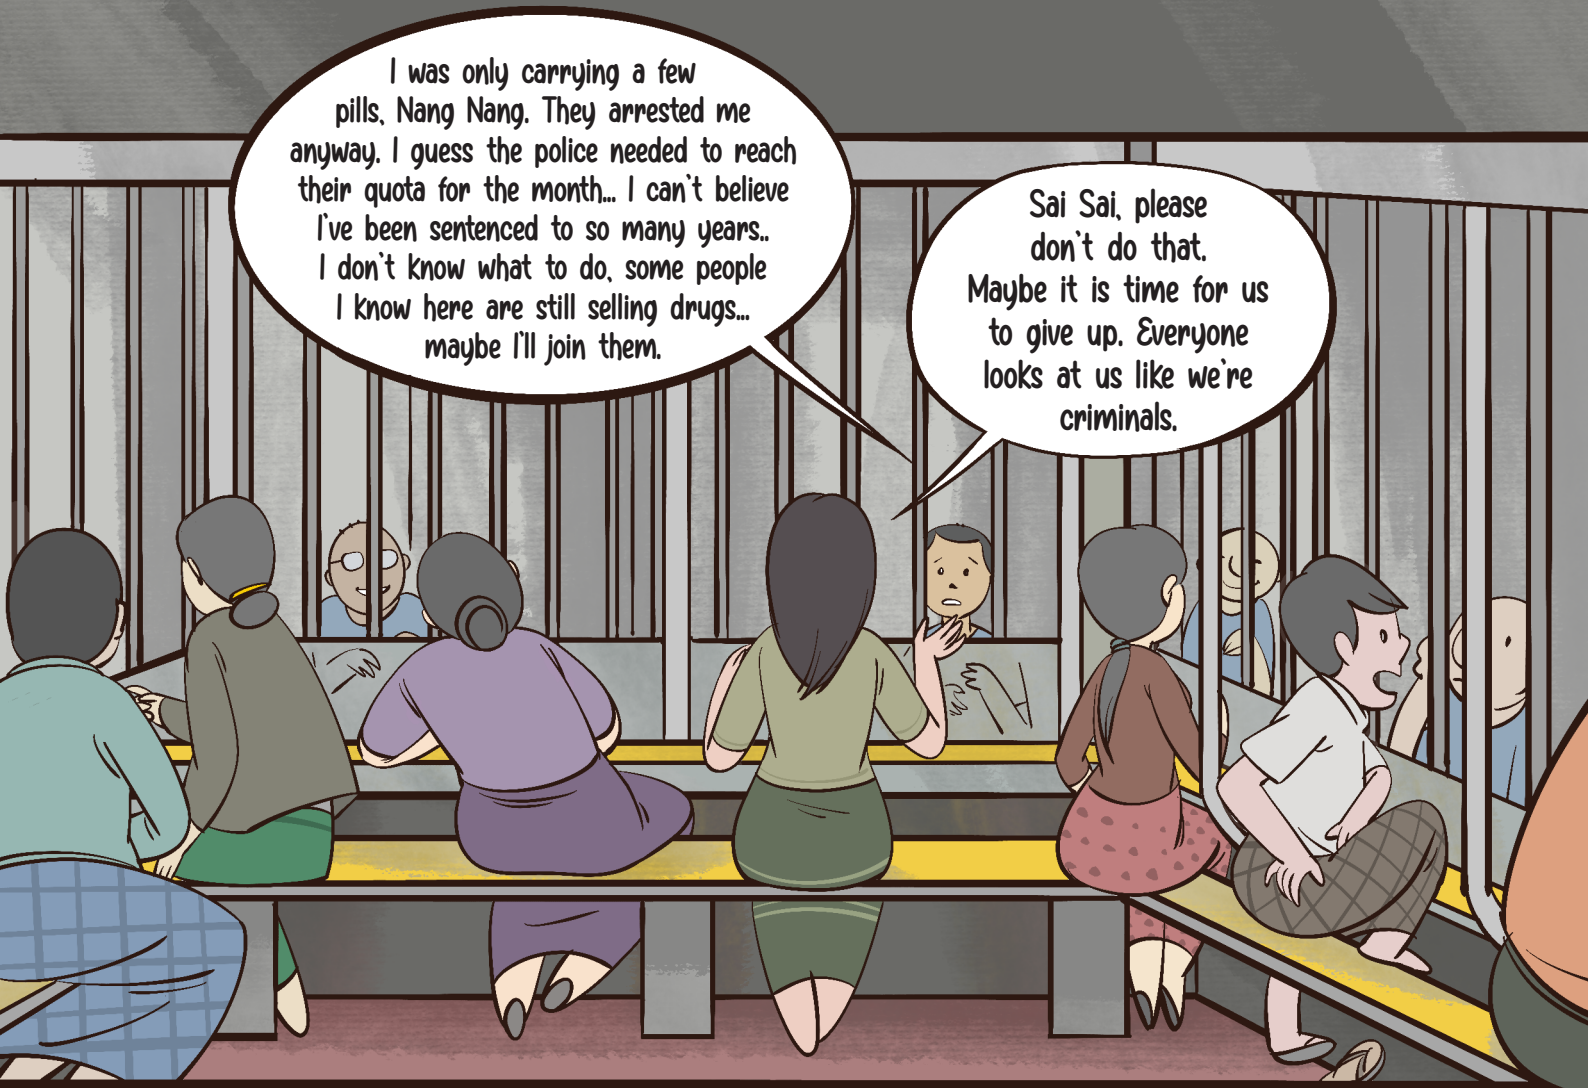

He's now at the Taunggyi prison..

But what if I get into trouble as well?

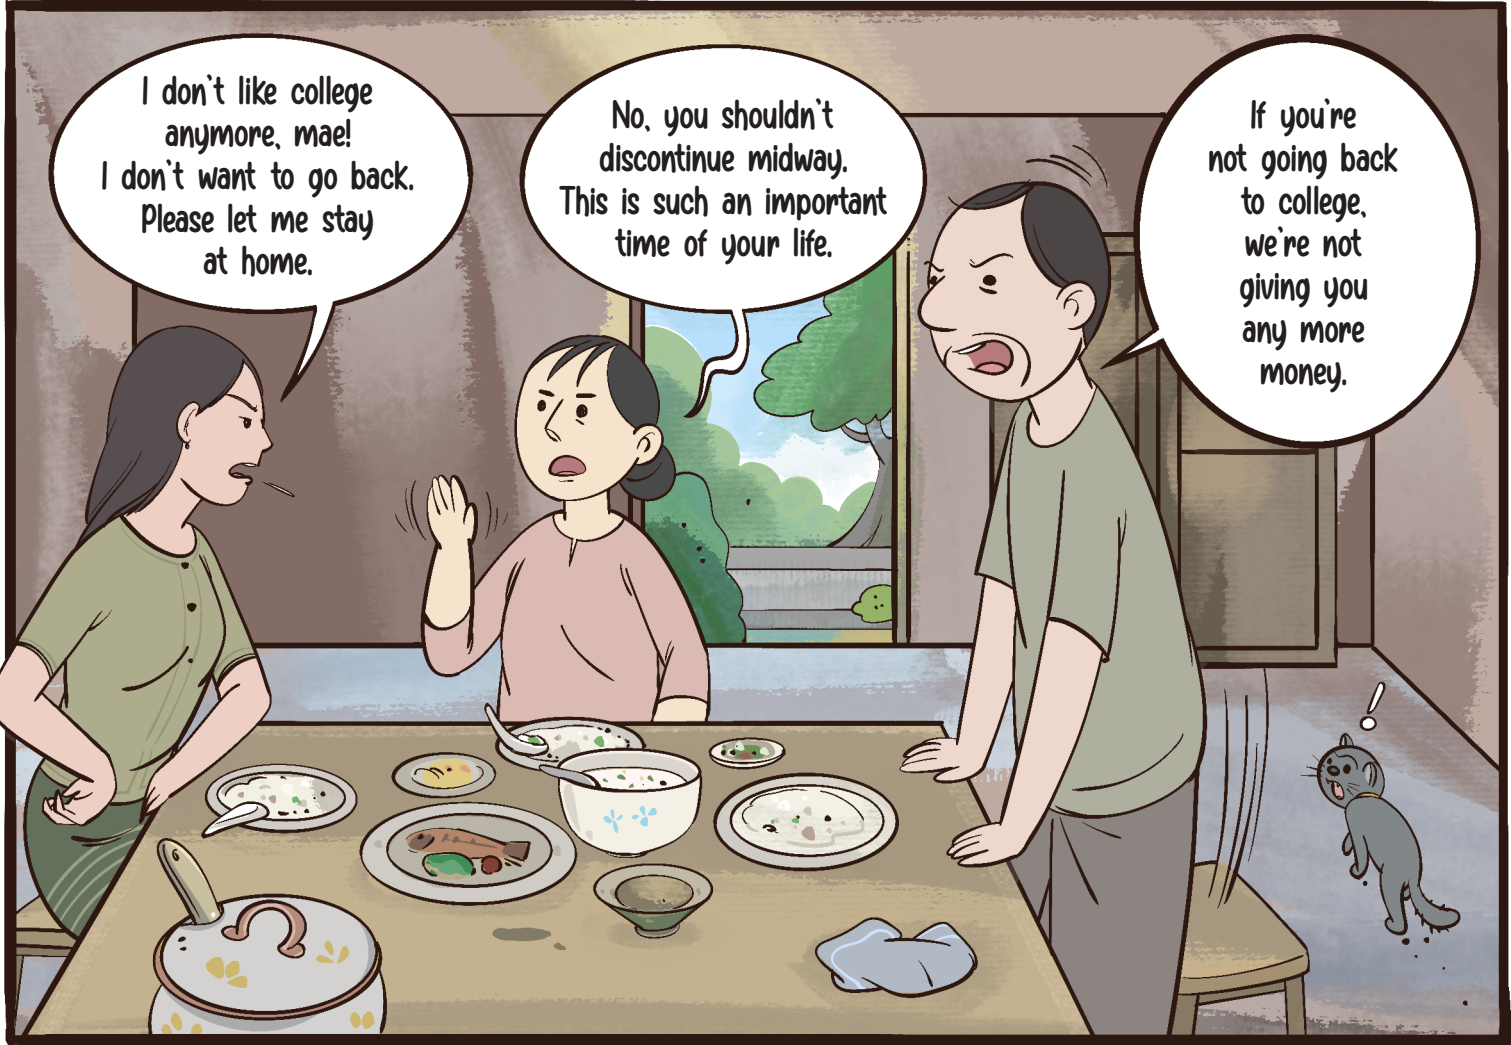

I just want to see him and make sure he's okay..

I was only carrying a few pills, Nang Nang. They arrested me anyway. I guess the police needed to reach their quota for the month... I can't believe I've been sentenced to so many years.. I don't know what to do, some people I know here are still selling drugs... maybe I'll join them.

Sai Sai, please don't do that. Maybe it is time for us to give up. Everyone looks at us like we're criminals.

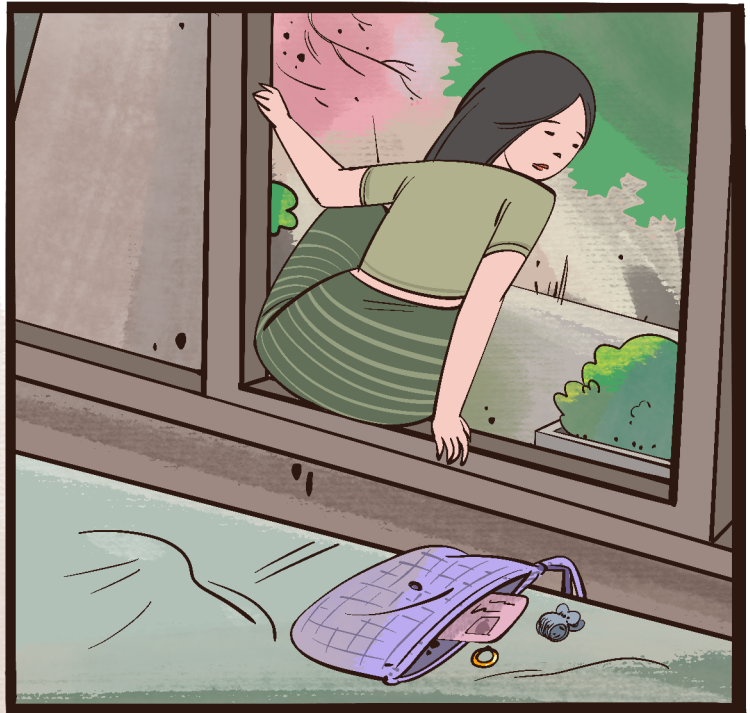

I don't like college anymore, mae! I don't want to go back. Please let me stay at home.

No, you shouldn't discontinue midway. This is such an important time of your life.

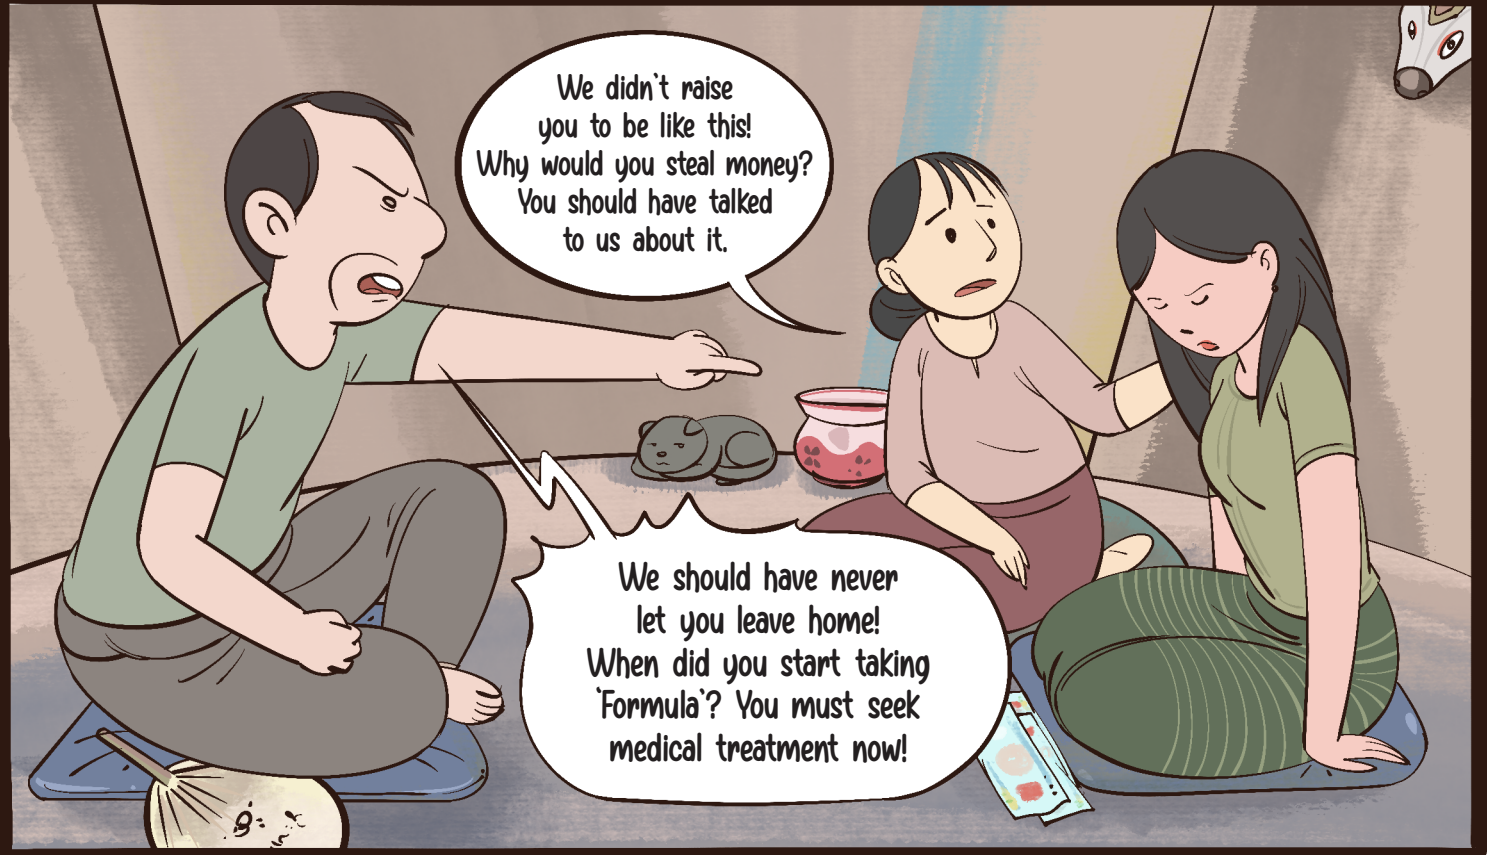

If you're not going back to college, we're not giving you any more money.

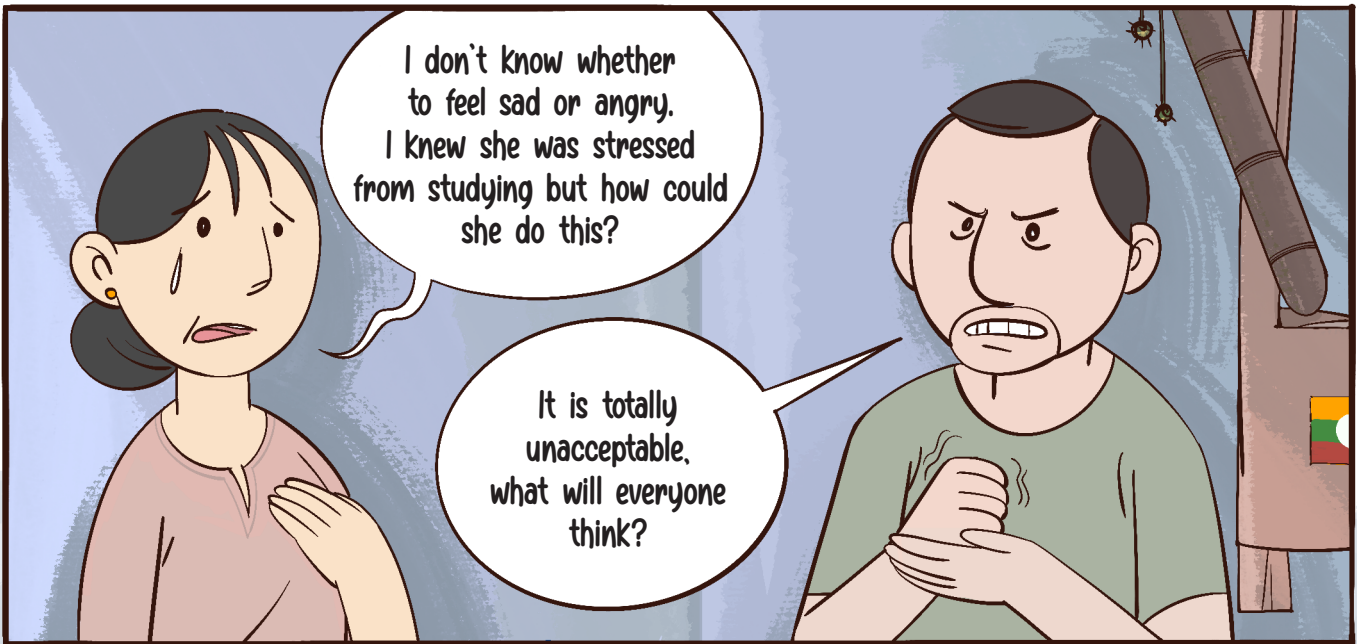

I'm so upset and stressed,  
I just need drugs  
right now.

We didn't raise  
you to be like this!  
Why would you steal money?  
You should have talked  
to us about it.

We should have never  
let you leave home!  
When did you start taking  
'Formula'? You must seek  
medical treatment now!

I've heard of stories  
from Hseng Mawn.  
There are too many men there.  
I don't feel safe.

She also told me about  
how expensive it is.

There are no local centres,  
so I would have to go all  
the way to Taunggyi.

I would have to pay for both  
the treatment  
as well as living costs.

And it doesn't work!  
She even stayed there for  
a few months.

But when she came back  
to campus  
she was back on drugs.

They are everywhere  
because they are  
so cheap...  
you can't escape them.

Besides,  
what will I tell the girls  
in my college?  
They already look at me  
differently because  
they just see me as  
an addict.

Nobody  
talks to me.
